Kind Kingdom

September Edition

A Warm Welcome from Team Kind Kingdom!

Dear Parents and Learners,
Step into another exciting chapter of our Kind Kingdom, where every day brings fresh opportunities to discover, create, and shine! This past month, our classrooms have been buzzing with curiosity and hands-on learning. From building mathematical foundations through numeracy manipulatives and broadening our horizons through global perspectives, to engaging with meaningful stories in School Cinema, observing the quiet magic of plant growth, and expressing our imagination through art—each experience has encouraged our little learners to step forward with confidence.
We are delighted to share these special glimpses with you and celebrate the growth, joy, and togetherness of our young learners.
With warm wishes,
Team Kind Kingdom

Numeracy

{Learning Through Manipulatives}

'Hands-On is Minds-On'

This month, our young mathematicians took learning into their own hands! They took a big leap in problem-solving by using base-ten blocks, place-value mats, and counting disks to master 3-digit addition and subtraction! By physically regrouping hundreds, tens, and ones, students developed a clear understanding of borrowing and carrying concepts. Using tangible objects transforms abstract equations into interactive discoveries, boosting both math fluency and spatial reasoning.

Plant Observation

{Young Botanists in Action}

Science came alive as our little scientists observed nature's magic up close! From planting seeds in soil to measuring sprouting leaves, students tracked each stage of plant growth with keen eyes and curious minds. This hands-on observation project helped students understand how seeds grow and the importance of soil, water, and sunlight. It also nurtured responsibility, patience, and care for the environment.

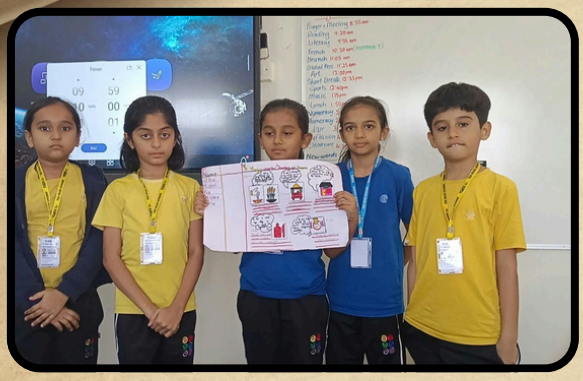
Our Learning

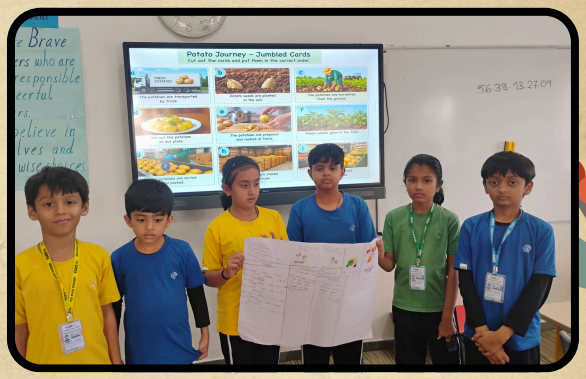
School Cinema

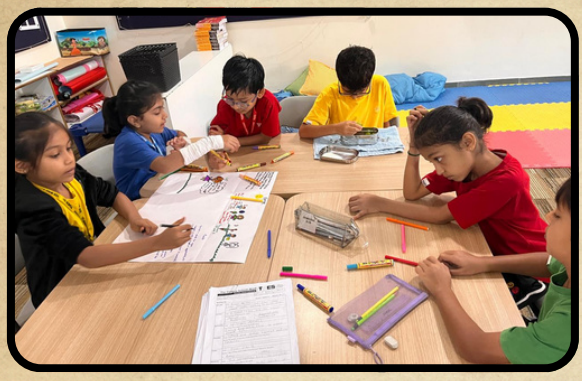
School Cinema offered our young learners a delightful blend of entertainment and meaningful life lessons! The children watched "Big Tantrum," learning about emotions, managing anger, and expressing feelings in healthy ways. Through engaging films centred on values such as self-acceptance, patience, and understanding, they explored everyday situations, embraced differences, and learnt the importance of perseverance. This enriching experience nurtured empathy, self-awareness, and positive thinking, helping students become more thoughtful and compassionate individuals.

Our Learning

Global Perspectives



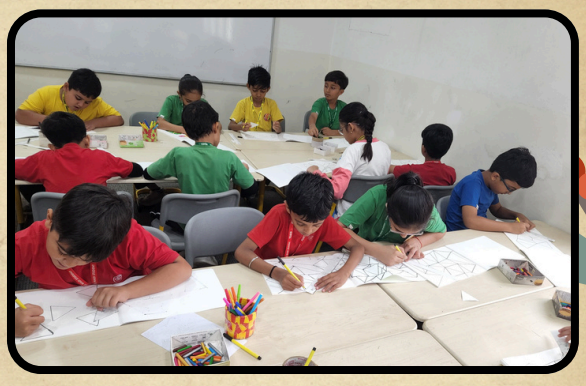


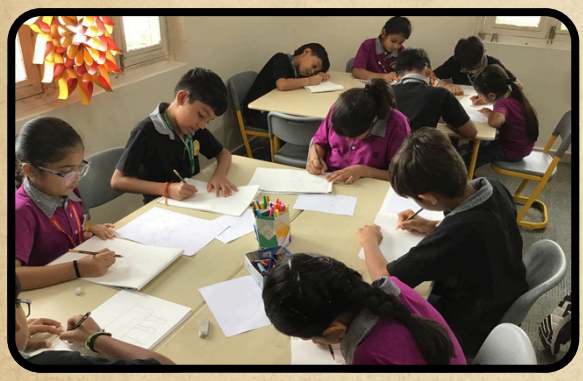


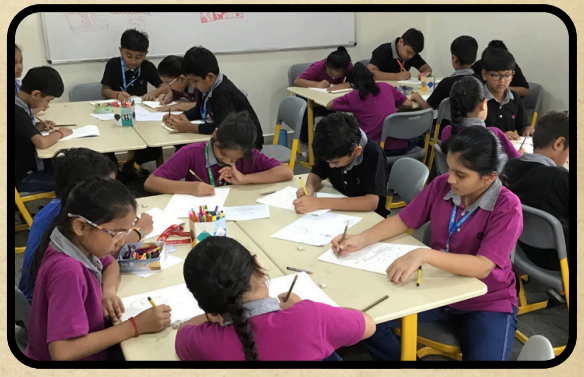
Our young learners embarked on an exciting journey of discovery as they explored the fascinating path food takes from farm to plate! From learning how crops are grown and harvested to discovering the processes that bring food to our tables, the children gained a deeper appreciation for the effort behind every meal. Through this activity, they explored different perspectives by understanding the roles of farmers, transporters, shopkeepers and consumers, recognising how each person contributes to bringing food to our plates. This experience encouraged them to appreciate others' efforts and view everyday situations from different points of view.

Creative Art

{Splashes of Colour, Bounds of Imagination}







Our art corner was filled with vibrant colours and big ideas this month! Exploring a variety of textures, mediums, and techniques, children expressed their thoughts, feelings, and individuality through unique artwork. Art at Kind Kingdom is all about the process of creation—building fine motor control, self-expression, and the joy of creating something truly their own. As you look through the photos above, you'll see our artists hard at work with crayons, sketch pens, and card-making materials. Working with finer tools like sketch pens and crayons encourages precision, concentration, and control. You'll notice intricate patterns, rich details, and carefully crafted designs with love. Every stroke on paper represents a moment of decision-making, pattern building, and proud personal expression!

Assembly

Our class assembly centred on the theme "Power of Words", highlighting how words can inspire, encourage, and spread kindness. Our young performers took centre stage with confidence, presenting soulful recitations and engaging skits that conveyed the importance of speaking thoughtfully and respectfully. Through their performances, students showcased their creativity while developing public-speaking skills, teamwork, and self-expression, learning to use their words positively and responsibly.

Fun Zone

Think Zone

Riddle 1

I am light as a feather, but even the strongest person in the world cannot hold me for more than a few minutes. What am I?

Riddle 2

What has a thumb and four fingers, but is not alive?

Book

Book of the Month

“The Most Magnificent Thing”

A charming story about a young girl and her best friend (a dog) who set out to make a magnificent creation. When things don't go right on the first try, she learns the power of perseverance, patience, and creative problem-solving!

Movie

Movie of the Month

“A Bug’s Life”

An inspiring animated story about Flik, an inventive ant who uses his clever ideas and teamwork to protect his colony. It celebrates creativity, friendship, and showing that even the smallest individuals can make a big difference!

Upcoming:

Poetry Fest:
2nd to 4th December ’26

Literature Fest:
18th to 22nd January ’27

Thought of the Month

"Never stop asking questions! Curiosity is the key that opens the door to amazing discoveries."

Answers:

Riddle 1
Your breath
Riddle 2
A glove
